

# The Great Trains

IN HANDSOME O SCALE

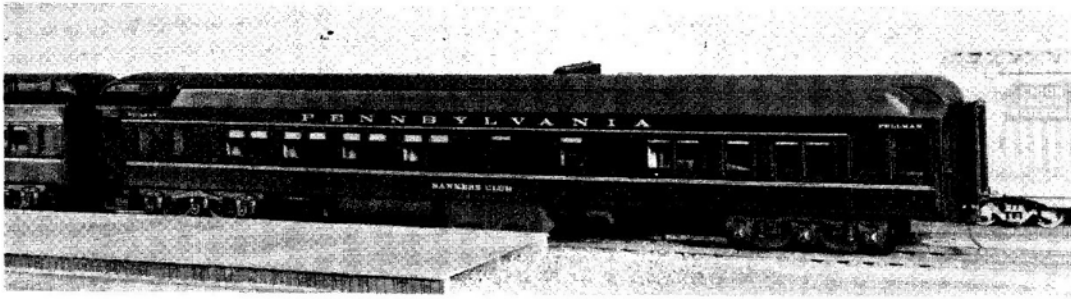

Re-create those exciting days of classic American passenger railroading when great trains such as **The Crescent Limited** and **The Empire Builder**, **The Broadway Limited** and **The Panama Limited** criss-crossed the land on rails of shining steel. Enjoy the satisfaction of modeling your favorite passenger train from our easy-to-build kits...baggage cars, RPO's, coaches, diners, all kinds of sleepers, observations... beautiful models of the popular equipment from the great heavyweight era...bright and shiny replicas of the colorful streamline lightweight cars...kits designed to make your model railroading fun from start to finish.

P.O. Box 394

Crystal Lake, IL 60014

**American Standard  
Car Company**

Our new heavyweight kits will provide you with many hours of enjoyment in assembly and operation. Sides are individually hand-molded in a plastic material. The wood roof is specially made for us by Northeastern Scale Models and each kit is available with a narrow clerestory or a wide clerestory. A pair of molded plastic end caps is provided so that you do not have to shape the ends of the roof. A/C duct material is wood, also made specially for our kits, and is available in two shapes to fit the narrow or wide clerestory configuration. Kits include the standard array of roof and underbody components, plus diaphragms, wire, and window glazing material. The floor and centersill are wood, while other small detail components are metal castings. Kits also include molded plastic ends and interior vestibule walls, both highly detailed, and made specially for us by Keystone Locomotive Works. All in all, just the finest kit you can find in O scale, if you want fidelity to prototype.

KIT 3523	6 comp-3 DR	KIT 3583	7 DR
KIT 3584	10 sec-2 DR	KIT 3585	10 sec-1 DR-2 comp
KIT 3958	14 sec	KIT 3959	3 comp-2 DR observation

SUPPLEMENTAL INFORMATION TO OUR CURRENT INFORMATION SHEETS

Effective on March 21, 1986, our entire product line of the lightweight kits, streamline trucks and interior seating components #55, #56, #64, #65, and #68 has been sold and information regarding these items, and orders for lightweights should be directed to:

Mr. Pete Plunkett  
American Lightweight Car  
1348 Biscayne Rd.  
Hollins, VA. 24019

We appreciate the great deal of interest that you have shown in our products, and feel confident that you will continue to see a nice array of lightweight equipment available from the new owner of that portion of our product line.

\*\*\*\*\*

As you can tell by the advertising that we will be doing in the next few months, we are returning all of our efforts to our long-time interest...the HEAVYWEIGHTS...the beautiful Pullman cars of the steam era, which many of you will already be familiar with from the many years that we produced them.

We will be concentrating very heavily on reproducing more of The GREAT TRAINS sets that you remember...just as a reminder, we did the 20th Century Limited in two versions, the Pacemaker, the George Washington, the Crescent Limited...all beautiful heavyweight equipment, complete trains from front to rear.

We're heading there again, and will be making announcements about the next of our GREAT TRAINS series, the Pennsylvania CONGRESSIONAL LIMITED, with the handsome heavyweight parlor cars and a PRR diner, with the beautiful solarium bring up the rear.

So...watch the ads in Model Railroader and O Scale News, and keep an eye on your mailbox for further news about our plans.

NOTE: Please correct the price shown in this list for All-Nation 6 wheel trucks from \$18.60 to \$19.50

DATED: 3/24/86

AMERICAN STANDARD KIT 1601: 60' RAILWAY POST OFFICE. PROTOTYPE B&O NUMBER 48, CLASS H-11, WAS BUILT BY THE AMERICAN CAR AND FOUNDRY ST. CHARLES MISSOURI PLANT IN 1926.
