# The Great Trains

IN HANDSOME O SCALE

Re-create those exciting days of classic American passenger railroading when great trains such as **The Crescent Limited** and **The Empire builder**, **The Broadway Limited** and **The Panama Limited** criss-crossed the land on rails of shining steel. Enjoy the satisfaction of modeling your favorite passenger train from our easy-to-build models of the popular equipment from the great heavyweight era...kits designed to make your model railroading fun from start to finish.

P.O. Box 394

Crystal Lake, IL 60039

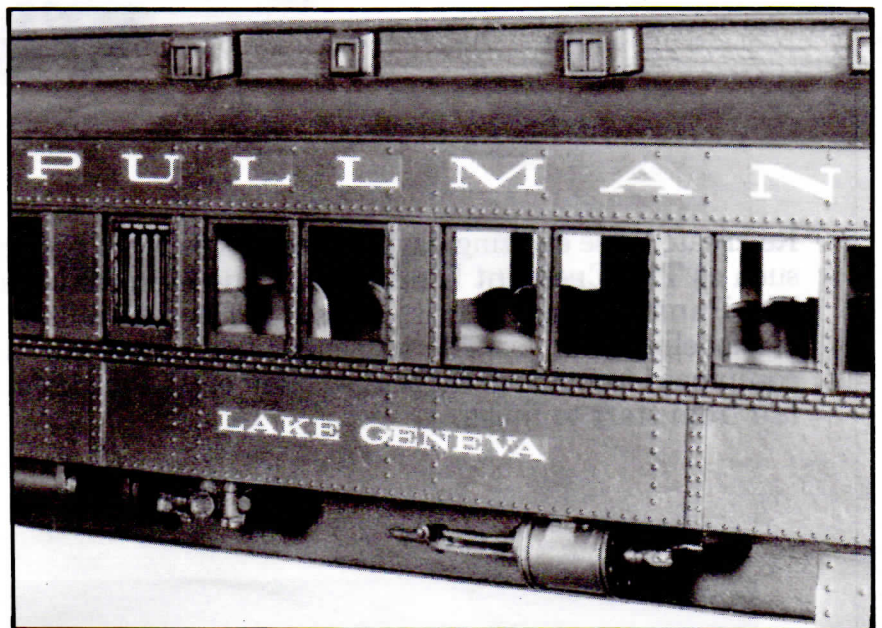

Our new heavyweight kits will provide you with many hours of enjoyment in assembly and operation. Sides are individually hand-molded in a durable urethane plastic material easy to paint. The wood roof is specially made for us. A pair of plastic molded end caps is provided so that you do not have to shape the ends of the roof. A/C duct material is wood, also made specially for us, and is available in two shapes to match either narrow or wide deck clerestory styles. Kits include the standard array of roof and underbody components, plus diaphragms, wire, and window glazing. A variety of styles of ends are used, all molded in plastic. The floor and centersill are wood, while other small detail components are cast metal. Trucks, couplers, and decals are not included. All in all, just the finest kit you can find in O scale, if you want fidelity to prototype.

-----

Look closely at the kind of detail level you will find in our carsides. As you can see, the kind of detail we provide goes a long way to duplicate as accurately as possible a real heavyweight side.

Note also the double row riveted belt rail, while also noticing the extensive details of vertical rivet courses all across the carside.

Specify when ordering, the type of A/C required for your kit from the five style we can duplicate: (1) ice; (2) Pullman mechanical; (3) Pullman mechanical with brine auxiliary; (4) Pullman electro-mechanical; (5) steam ejector.

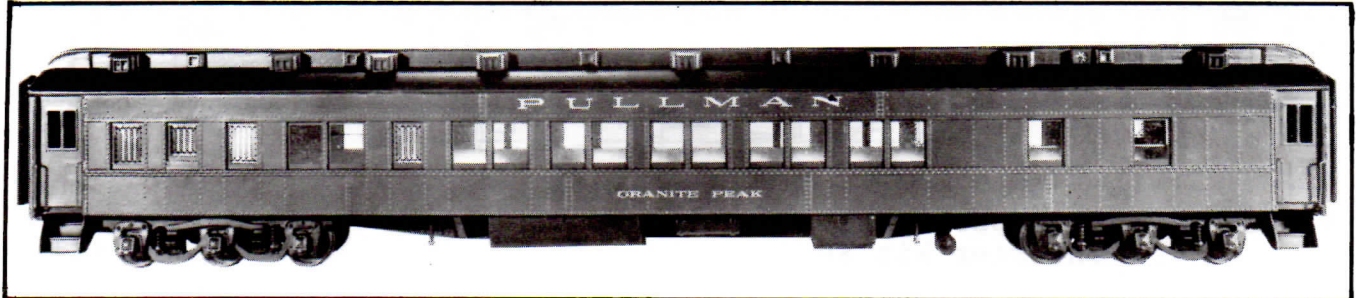

-----

ORDERING IS SIMPLE: We accept personal checks and also take VISA/MC. Call if you wish to order by phone--815-459-6777. Illinois residents include 6½% for Illinois State tax. Shipping on each order is \$4 for one kit, and \$1.25 for each additional kit. Overseas orders are subject to whatever postal charges would apply, and are computed individually when orders are placed.
